**Reasons for Allowance:**

The Independent claims recite limitations for receiving and processing advertisements using long range and short range transceivers and a limitation for the following:

"Communicating the request for further details from the consumer device to the advertisement follow up device by using short range wireless telecommunications" and "wherein the request for the fuller details or further details is made automatically without user intervention"

The prior art of record teaches mobile devices receiving advertisements via short range transceivers and obtaining more details using long range transceivers. This is different because the more details are not obtained using short range transceivers. New search updates revealed no other prior art which teaches the limitations in the context of the claims. Therefore, Claims 11-12, 14-20,23-24,26,31-33,35-39 are indicated allowable.
